Preface	1
Thermionic Emission	
Ba-Dispenser Cathodes	
Barium depletion study on impregnated cathodes and lifetime prediction J.M. Roquais, F. Poret, R. le Doze, J.L. Ricaud, A. Monterrin and A. Steinbrunn	5
Miniature reservoir cathode—an update B.K. Vancil and E.G. Wintucky	18
Ion bombardment investigations of impregnated cathodes X. Zhang and G. Gaertner	25
Estimation of barium evaporation rate from emission measurement of dispenser cathodes M. Ravi and K.S. Bhat	33
Scandia-doped tungsten bodies for Sc-type cathodes J. Wang, Y. Wang, S. Tao, H. Li, J. Yang and M. Zhou	38
Investigation and application of impregnated scandate cathodes J. Li, S. Yan, W. Shao, Q. Chen and M. Zhu	49
Gas poisoning investigations of scandate and M-type dispenser cathodes W. Shao, K. Zhang, J. Li, S. Yan and Q. Chen	54
Correlation of emission capability and longevity of dispenser cathodes with characteristics of tungsten powders I.P. Melnikova, V.G. Vorozheikin and D.A. Usanov	59
Oxide Cathodes	
Recent developments in oxide cathode research for CRT applications D.S. Barratt and G. Gaertner	65
Accelerated life tests of CRT oxide cathodes G. Gaertner, D. Raasch, D. Barratt and S. Jenkins	72
Preliminary results on the chemical characterisation of the cathode nickel—emissive layer interface in oxide cathodes S.N. Jenkins, D.K. Barber, M.J. Whiting and M.A. Baker	78
Thermionic Emission: Miscellaneous and Applications	
Microstructure and emission ability of rare earth oxides doped molybdenum cathodes J. Yang, Z. Nie and Y. Wang	87
Determination of the latent heat of phase transitions in ruthenium by means of a thermionic microscope V.I. Emel'yanov, O.Y. Maslennikov and P.N. Roukhlyada	96
Advanced structure of cathode for gas discharge lamp of super high pressure P.A. Kruglenya and O.Y. Maslennikov	101

Model of <i>m</i> -level low-frequency current fluctuations in metal thermionic cathodes S.S. Ghots and R.Z. Bakhtizin	105
Field Emission	
Field Emitter Reviews and Fundamentals	
Field emission in vacuum micro-electronics G.N. Fursey	113
The field emission from carbon nanotubes G.N. Fursey, D.V. Novikov, G.A. Dyuzhev, A.V. Kotcheryzhenkov and P.O. Vassiliev	135
Fundamental and applied directions of field emission electronics using nanocluster carbon materials Yu.V. Gulyaev, N.I. Sinitsyn, G.V. Torgashov and S.G. Saveliev	141
Ponderomotive forces effect on the field emission of carbon nanotube films O.E. Glukhova, A.I. Zhdanov, I.G. Torgashov, N.I. Sinitsyn and G.V. Torgashov	149
Peculiarities of the electron field emission from quantum-size structures V.G. Litovchenko, A.A. Evtukh, Yu.M. Litvin, N.M. Goncharuk, H. Hartnagel, O. Yilmazoglu and D. Pavlidis	160
Electron spectroscopy of nanodiamond surface states P.I. Belobrov, L.A. Bursill, K.I. Maslakov and A.P. Dementjev	169
Prediction of field emitter cathode lifetime based on measurement of <i>I</i> - <i>V</i> curves V.S. Bormashov, K.N. Nikolski, A.S. Baturin and E.P. Sheshin	178
Regression equations modelling diffusion processes V.M. Anikin, Yu.A. Barulina and A.F. Goloubentsev	185
Field Emitter Technology	
Properties of carbon materials, especially fibers, for field emitter applications E.P. Sheshin	191
CVD growth of carbon nanotube films on nickel substrates E.F. Kukovitsky, S.G. L'vov, N.A. Sainov and V.A. Shustov	201
CNTs grown on the surface of various materials by large volume MP-CVD for VME applications G.Y. Liu, D.Y. Zhong, S.H. Xia, S.F. Cheng, Y.G. Ding, Y.J. Lu, Y.J. Shao, H.Y. Li, L.J. Hangfu and E.G. Wang	209
Field emission characteristics of nanostructured thin film carbon materials A.N. Obraztsov, A.P. Volkov, A.I. Zakhidov, D.A. Lyashenko, Yu.V. Petrushenko and O.P. Satanovskaya	214
Study of emission centers in amorphous carbon (a-C:H) by field electron and field desorption microscopy D.P. Bernatskii, A.V. Chernyshev and V.I. Ivanov-Omskii	222
Field emission influenced by residual gas and passivation of field emitters by diamond coating Y.C. Ko and D. Jeon	228
Influence of the interelectrode distance in electrophoretic cold cathode fabrication on the emission uniformity D.A. Kurnosov, A.S. Baturin, A.S. Bugaev, K.N. Nikolski, R.G. Tchesov and E.P. Sheshin	232
Peculiarities of field emission from silicon carbide films A.A. Evtukh, N.I. Klyui, V.G. Litovchenko, Yu.M. Litvin, O.B. Korneta, V.M. Puzikov and A.V. Semenov	237
Stratum-like structured metal alloy cathode B.Ch. Djubua and O.V. Polivnikova	242
Field Emitter Applications	
Investigation of FEAs applied in vacuum electron gun X. Li, C. Yang, G. Bai, F. Zhang, F. Liao, J. Feng, M. Ding and Y. Du	249
Influence of parameters of field-emission cathodoluminescence light sources on their technical properties M.O. Popov, S.Yu. Bulakhov, A.V. Karpov, S.A. Shiriaev, E.N. Skorokhodov and A.L. Suvorov	253
Characterizations of light sources with carbon fiber cathodes M.Yu. Leshukov, A.S. Baturin, N.N. Chadaev and E.P. Sheshin	260

Suppression of secondary electrons from diamond by whisker formation S.W. Lee, Y.J. Baik, C.J. Kang and D. Jeon	265
Secondary Emission	
Scanning electron and tunneling microscopy of palladium-barium emitters V.B. Baiburin, U.P. Volkov, S.V. Semenov and A.S. Semenov	269
A study of secondary electron emission properties of the molybdenum cathode doped with RE_2O_3 J. Wang, H. Li, J. Liu, Y. Wang, M. Zhou, Y. Gao, S. Tao and J. Zhang	273
Peculiarities of constructing planar microminiature current sources based on secondary emission cathode excited by an edge FEA Yu.F. Zakharchenko, N.I. Sinitsyn, Yu.V. Gulyaev and S.G. Saveliev	280
Further Emission Phenomena	
Liquid carbon surface during explosive emission G.N. Fursey, M.A. Polyakov, L.A. Shirochin and A.N. Saveliev	286
Applications in Microwave Tubes	
A study of noise and collateral phenomena observed in central-cathode magnetron devices I.A. Karzhavin, B.Z. Neyman, G.S. Gundobin, V.I. Vislov, A.V. Lashenko and A.B. Levande	291
Computer simulation of magnetron devices V.B. Bayburin, A.A. Terentiev, V.I. Vislov, A.B. Levande, I.K. Guriev and A.A. Sysuev	301
Construction principles for multi-beam microwave power amplifier tubes with distributed transverse-extended interaction, using fea electron source N.I. Sinitsyn, Yu.F. Zakharchenko and Yu.V. Gulyaev	310
Author Index	I
Subject Index	IV
